

# NuMicro<sup>®</sup> MA35H0 Series

New Option for Industrial HMI Applications

[salesupport@nuvoton.com](mailto:salesupport@nuvoton.com)

Joy of innovation  
**NUVOTON**

# NuMicro<sup>®</sup> MA35H0 Series

## Key Specifications

### Core & Memory

- Dual 64-bit Cortex-A35 cores @ 650 MHz
- 32 KB I/D L1 cache & 512 KB L2 cache
- Stacking 128 MB DDR in LQFP216 Package
- Operating temperature (Tj): -40°C ~ +125°C

### Display & Video

- Display resolution up to 1280 x 800 @ 60 fps
- Display interface included RGB, SPI, i80
- 2D Graphic Accelerator
- JPEG & H.264 decoder resolution up to 1280 x 800 @ 60fps

### Practical Security

- Arm<sup>®</sup> TrustZone<sup>®</sup> & Secure Boot
- Crypto Engines (AES, SHA, ECC, RSA, SM) & TRNG
- OTP memory & Keystore

### High-Speed Connectivity

- Megabit Ethernet with IEEE 1588v2
- USB 2.0 High Speed Host & Device
- SDIO3.0, QSPI, CAN FD, UARTs, I2S

## New Option for Industrial HMI

- The NuMicro<sup>®</sup> MA35H0 series is a high-performance MPU designed for Industrial HMI applications
- Built-in display interface and 2D GFx & video decoder
- Supports TFT-LCD with a resolution of 1280 x 800, providing smooth graphics and video playback

# NuMicro<sup>®</sup> MA35H0 Series Features Highlight

High-Performance  
with  
Power Efficiency

Smooth Graphics  
& Video Playback

Practical

# NuMicro<sup>®</sup> MA35H0 Series Features

## Core & Memory

- Dual 64-bit/32-bit Arm Cortex-A35 high-performance cores running up to 650 MHz
- 32 KB I/D L1 cache for each core, and a 512 KB shared L2 cache
- Supports discrete power supply and PMIC solutions
- Operating temperature (Tj): -40°C ~ +125°C
- Offering LQFP package parts with stacking a DDR SDRAM up to 128 MB

## Security

- TrustZone
- Secure Boot
- Hardware Security Features
  - Crypto Engine: AES256, SHA512, ECC, RSA4096, SM2/3/4
  - True Random Number Generator (TRNG)
  - 8 Kbits One Time Programmable (OTP) memory with Key Store to protect key

## Display

- LCD RGB I/F display with the resolution up to 1280 x 800@60 FPS
- Integrated a 2D Graphic Engine
- JPEG decoder, picture size up to 16368 x 16368
- H.264 decoder supports baseline, main profile, high profile, and resolution up to 1280 x 800 @60 FPS

## High-Speed Connectivity & I/O

- 4 sets of PDMA
- 1 set of 10/100 Mbps Ethernet
- 1 set of USB HS Host, 1 set of USB HS Host/Device dual role
- 1 set of SDIO3.0 and 1 set of SDIO2.0
- 2 sets of CAN FD
- 1 sets of QSPI
- 1 sets of I<sup>2</sup>S
- 2 sets of SPI/I<sup>2</sup>S
- 6 sets of UART
- 3 sets of I<sup>2</sup>C
- Up to 150x GPIO (LQFP216)
- 18-channel 28-bit Enhanced PWM (EPWM)
- 12-channel 32-bit Timer PWM (Timer PWM)
- RTC with V<sub>BAT</sub>
- 1 set of 12-bit 500 ksps ADC with 8 input channels, supports 4/5-wire resistive touch

# NuMicro<sup>®</sup> MA35 Family P/N and Packages

Series & CPU DDR	MA35H0 Dual A35@650 MHz	MA35D1 Dual A35@800 MHz		
	(External)

# | The Advantages of Stacking the DDR SDRAM

- Nuvoton MPU provides LQFP and BGA package parts with stacking a 128 MB to 512 MB DDR2/DDR3 SDRAM
- The advantages of stacking the DDR SDRAM:

Stacking a large DDR up to 512 MB

Easy system design and manufacturing

Lower EMI interference

Reducing the PCB layers

Reducing the PCB area

Saving BOM cost

Saving production cost

LQFP

BGA

**Nuvoton MPU stacking DDR SDRAM inside.  
W/O External DDR SDRAM**

# High-Performance with Power Efficiency

- The NuMicro MA35 Family is a multi-core microprocessor.
  - **MA35H0**
    - Dual 64bit Cortex-A35 high-performance cores up to 650 MHz
  - **MA35D1**
    - Dual 64bit Cortex-A35 high-performance cores up to 800 MHz
    - One Cortex-M4 real-time processor up to 180 MHz
- Compared to Cortex-A7, Cortex-A35 has improved the overall performance 6% to 40%.
- The high-performance and real-time cores help edge data processing and enable the tiny AI/ML ability.
- For tiny AI/ML, we provide sample code in Keyword Spotting, Face Detection and People Counting

## Cortex-A35 Offers more Efficiency over Cortex-A7

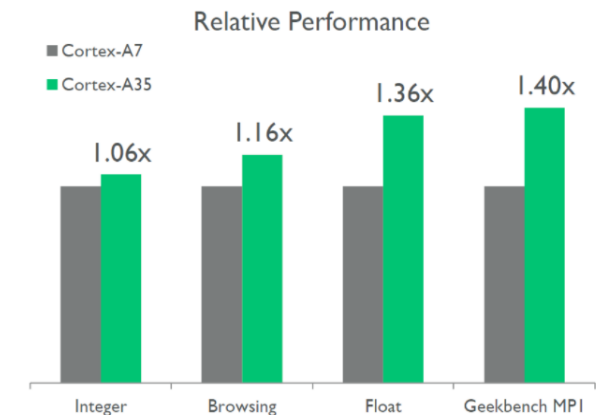

10% low power

6% to 40% performance uplift

64b capable with full backwards compatibility

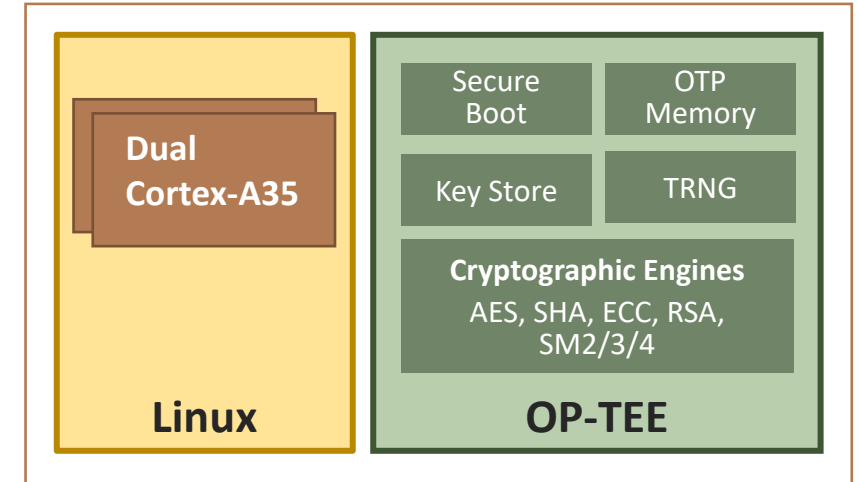

\*Comparisons assume same process technology and implementation for both processors  
\*Captured from Arm Community blogs

# Practical Security Features for Industrial HMI Applications

- **Root of Trust**, Internal Boot ROM with OTP key to satisfy the secure boot requirement
- **Built-in cryptographic accelerators**, Key Store, and OTP memory
- The secure environment and features **realize the Protection, Detection, and Recovery** for IoT products.
- Easily established
  - **Execution Security**
    - Trust Firmware–A , OP-TEE, Secure boot
  - **Communication Security**
    - Hardware cryptographic accelerators
  - **Chip-level Storage Security**
    - Key Store and OTP memory, accessed by the cryptographic engines, without the need of CPU access

The MA35H0 is a trusted system for Industrial HMI required security

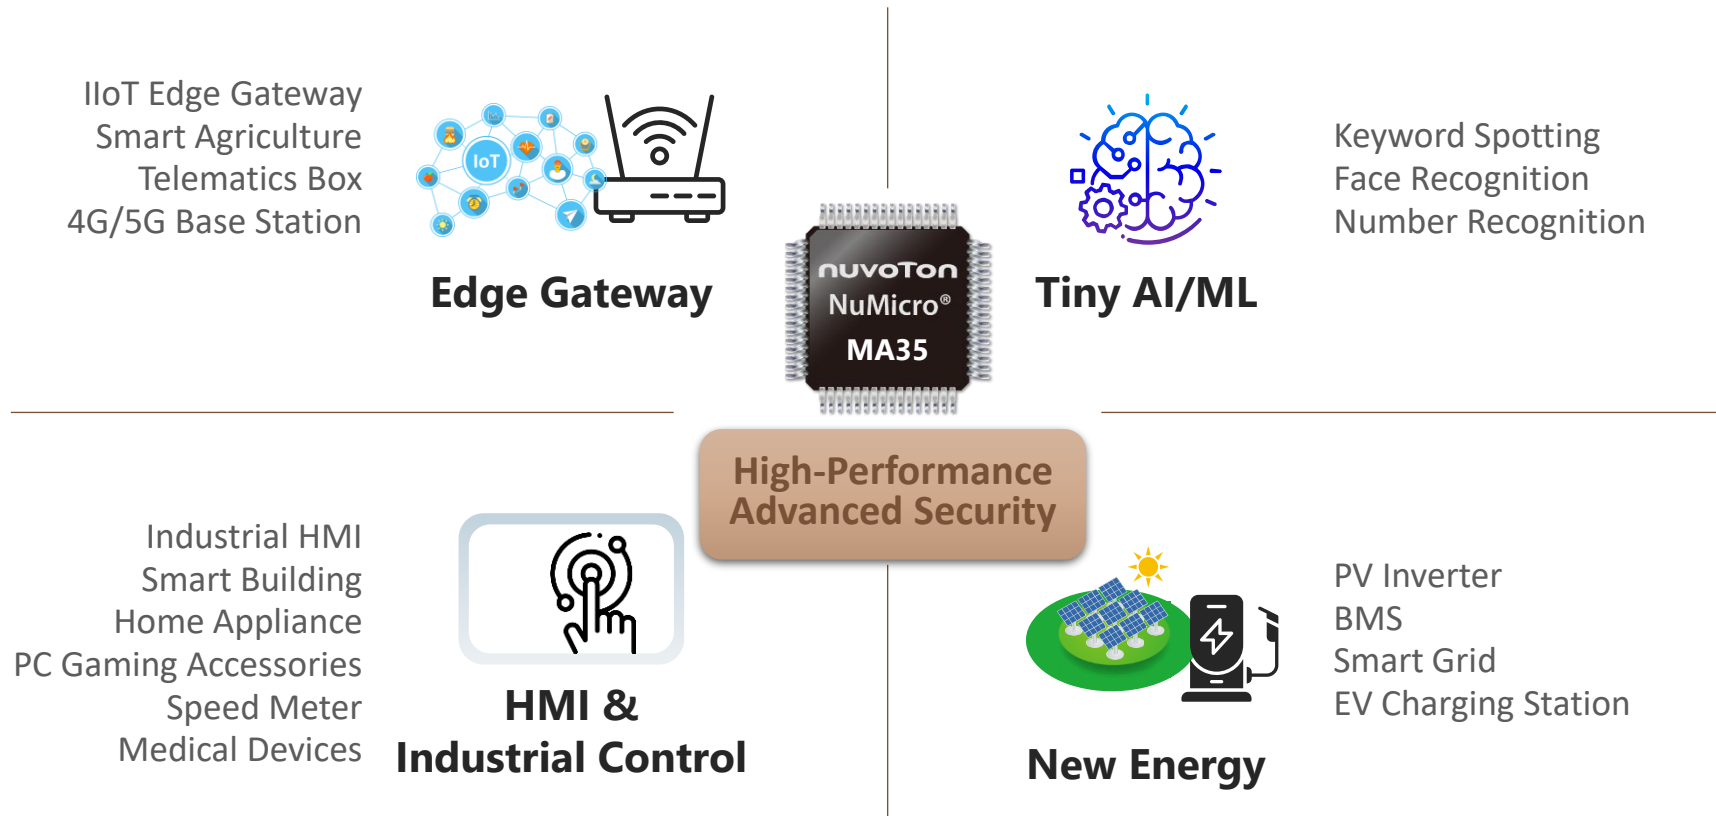

# The Graphics and Video Acceleration for Industrial HMI

- For better user experience in graphics HMI, integrates an LCD display I/F, resolution up to 1280 x 800 at 60 FPS and with the features
  - Hardware cursor
  - On Screen Display (OSD)
- For increasing graphics performance, integrates the 2D graphics engine and with the features
  - BitBlt
  - Rotation
  - Multi-source Alpha Blending
  - Color Format Converting
- Supports video playback by hardware JPEG and H.264 decoder
- Supports 4/5-wire resistive touch without an external IC

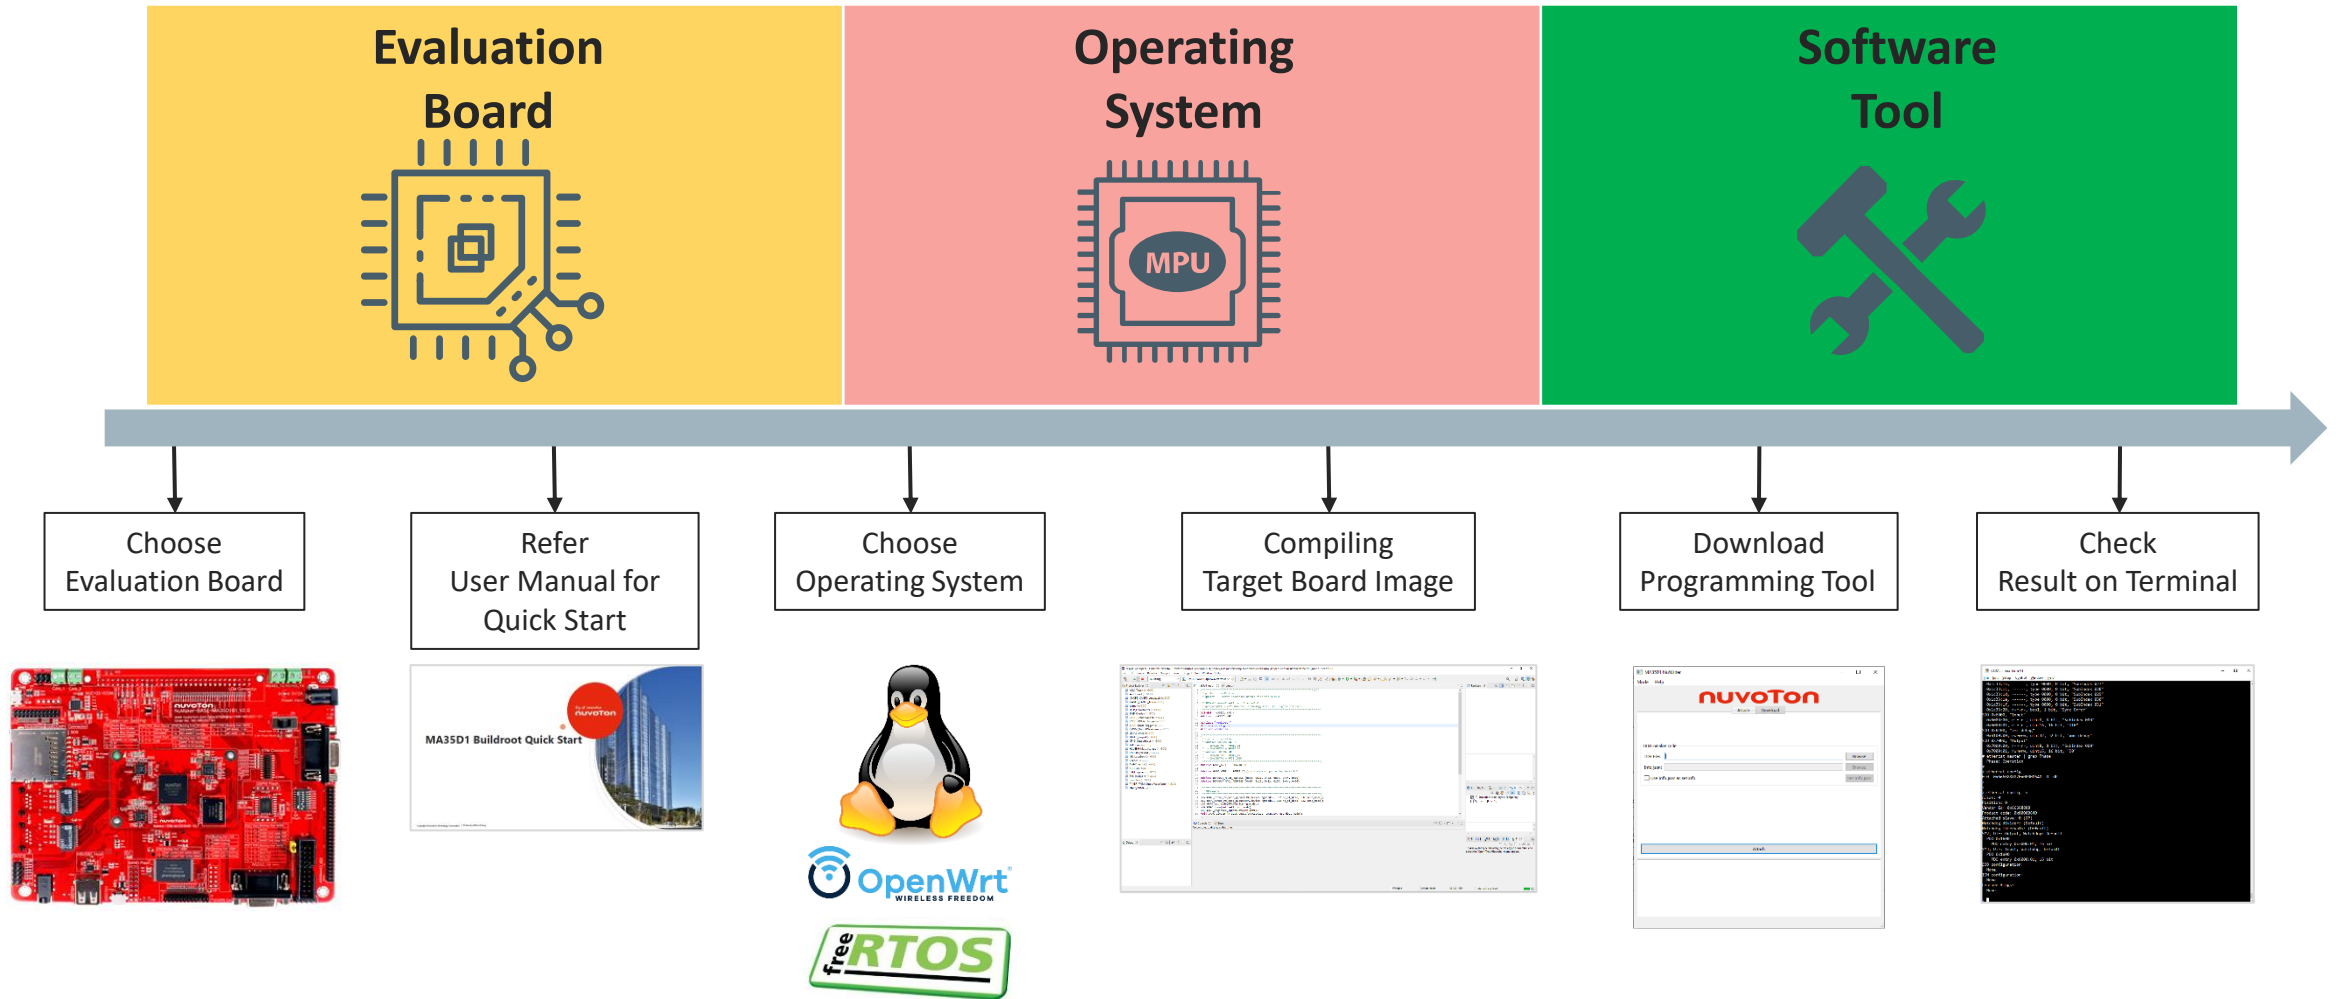

The MA35H0 provides more effective GUIs in high-resolution display

# NuMaker-HMI-MA35H0-A1 EVB

## Features

- MA35H04F764C / LQFP216 package (MCP with 128MB DDR)
- Dual Cortex-A35, CPU speed up to 650MHz
- Discrete power supply
- Memory Device
  - NAND Flash 1GB
  - QSPI NAND Flash 512MB
  - SD3.0 (Standard SD slot) x1, SD2.0(Micro SD slot) x1
- High-speed Connectivity
  - Megabit Ethernet x1
  - USB2.0 HS Host x1, USB2.0 HS Host/Device x1
  - CAN FD x1
  - RS485 / RS232 x2
- Audio Codec (NAU88C22YG) with Mic & Headset Jack
- Analog and Digital I/O header
- 7" TFT-LCD(1024 x 600) with Resistive Touch
